GitHub Installation Completed.

The screenshot shows the GitHub Copilot settings page for the user 'prasanna1280'. The page is divided into a left sidebar with navigation links and a main content area. The sidebar includes links for Public profile, Account, Appearance, Accessibility, Notifications, Access, Billing and licensing, Emails, Password and authentication, Sessions, SSH and GPG keys, Credentials, Organizations, Enterprises, Moderation, Code, planning, and automation, Repositories, Codespaces, Packages, and Copilot. The main content area is titled 'GitHub Copilot' and shows the 'Free' plan. It includes a 'Usage' section with progress bars for 'Inline suggestions' (65% used) and 'Included credits' (10% used), and a 'Features' section with a list of enabled features: 'Semantic indexing for Non-GitHub Repositories', 'Copilot Chat in GitHub.com', 'Copilot CLI', and 'Copilot in GitHub Desktop'. Each feature has an 'Enabled' toggle switch.

GitHub Copilot Free

Usage

- Inline suggestions: 65% used
- Included credits: 10% used

Upgrade your Copilot plan for higher usage limits, premium models, AI reviews and more. [Upgrade plan](#)
